Science Advisory Board; Drinking Water Committee; Notification of Public Advisory Committee Meeting June 18-19, 1998

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Drinking Water Committee (DWC) of the Science Advisory Board (SAB) will hold a public meeting beginning at 8:30 am Thursday, June 18, 1998 and ending not later than 3:00 pm Friday, June 19, 1998 (Eastern Time). The meeting will be

held in Room 3709-Mall of the EPA Headquarters Building, 401 M Street, SW, Washington, DC 20460.

At the meeting, the Committee will engage in "consultations" with the Agency on a number of scientific topics of relevance to Safe Drinking Water Act (SDWA) implementation. Documents discussing some or all of these topics may be the subject of future formal reviews by the Drinking Water Committee. Consultations to be conducted include the following topics: (a) The EPA drinking water contaminant occurrence data base; (b) technologies for small systems; and (c) drinking water intake. The DWC will also receive an update on the agency's final Research Plan for Microbial Pathogens and Disinfection By-Products in Drinking Water, receive information on the agency's M/DBP Research Tracking System, and receive an informational briefing on alternative test systems for disinfection byproduct testing. The DWC will also conduct discussions with the Agency that will help the Committee plan its future actions on drinking water and drinking water research.

An SAB "Consultation" is an early, public interaction between the SAB and the Agency occurring before the Agency has committed itself to a position and even before it has written its ideas down. The intent of a Consultation is to leaven the Agency's thinking by airing and discussing various views and ideas about how the Agency might proceed on a problem—long before the Agency has committed itself to a specific direction. The process of a Consultation is an open dialogue between Agency personnel, who describe the problem, and the members of an SAB panel who give their *individual* ideas and suggestions about how the Agency might proceed. There is no intention to develop a *consensus* position; therefore, an SAB Consultation should not be considered a peer review of the issue by the SAB, since—by definition—the Agency has not produced anything to peer review at the time of the Consultation, and the reactions provided are those of individuals and not formal advice approved by the SAB's Executive Committee.

FOR FURTHER INFORMATION CONTACT: Single copies of the background information for this review, or the meeting agenda, can be obtained by contacting Mr. Thomas O. Miller, Designated Federal Officer for the Drinking Water Committee, Science Advisory Board (1400), U.S. EPA, 401 M Street, SW, Washington, DC 20460; by telephone at (202) 260-5886; by fax at (202) 260-7118 or via Email at:
